

# PG&E Engineering Summer Scholars Program

**This Summer 2013, the School of Engineering in partnership with the Office of Undergraduate Education will launch the PG&E Engineering Summer Scholars Program at UC Merced. This unique and exciting program is designed to provide undergraduate students majoring in engineering disciplines with hands-on research experience to broaden their education and build their credentials for professional careers or graduate school following graduation. The PG&E Engineering Summer Scholars Program, funded by a gift from Pacific Gas and Electric Company, provides unique experiences for talented engineering undergraduates through involvement in faculty-mentored independent research, GRE training, career and graduate preparation seminars, leadership development, advising and other scholarly activities and resources.**

## Apply Now!

**Deadline is March 31, 2013**

**10 Students; \$3,500 Summer Stipend**
