Innovations in
Graduate Education
Training Program

OPEN HOUSE Interdisciplinary Computational Graduate Education Program

Open to all first-year
doctoral students
interested in the
computational sciences
(regardless of main field
of study)

Wednesday,
9/14
SSB 170
1 - 3 PM

Problem Solving
Team Building
Expand Computational Skills
Build Familiarity with
Data Analytic Tools
Develop Social Support Networks
Work with Multiple Mentors
Great Career Preparation

Join us for an informational
session to launch a new training
program for graduate students
in STEM fields.

Hear from affiliated faculty and
network with other students
interested in computational
and analytical training.

*Light refreshments
will be served.*
